PROMINEO TECH

Career Services Assignment 7 – Resume

Instructions: Refer to the *Resume Checklist* and *Creating a Resume That Stands Out* resources in your career services module. Create a nice, clean resume. Create accounts on sites like CareerBuilder, Monster, Indeed, and Glassdoor. Upload your resume to these sites and make your resume public. Turn in your resume in addition to this document. Answer the questions below.

What are the URLs to your profile on the sites you uploaded your resume to?

https://www.linkedin.com/in/michael-goeres/

https://www.monster.com/profile/detail

> (Not sure why monster.com didn't give me a more specific URL)

https://www.careerbuilder.com/myprofile

> (CareerBuilder did the same thing, although it told me the site was being updated and was unavailable)

What did you learn about resume writing?

The general style of resumes has changed since I last updated my resume.

Resume on next page – it fits on a single sheet with a smaller header, footer, and margins so I modified them.

Michael Goeres
APPLICATION DEVELOPER

402-499-8572 | mwgoeres@gmail.com | www.linkedin.com/in/michael-goeres/

Lincoln, NE | github.com/MichaelG2022
